|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|--|--|--|
| D1   | Deposit into or onto land, (e.g., landfill, etc.)                                                                                                                                                                              |  |  |  |  |  |  |  |
| D2   | Land treatment, (e.g., biodegradation of liquid or sludgy discards in soils, etc.)                                                                                                                                             |  |  |  |  |  |  |  |
| D3   | Deep injection, (e.g., injection of pumpable discards into wells, salt domes or naturally occurring repositories, etc.)                                                                                                        |  |  |  |  |  |  |  |
| D4   | Surface impoundment, (e.g., placement of liquid or sludge discards into pits, ponds or lagoons, etc.)                                                                                                                          |  |  |  |  |  |  |  |
| D5   | Specially engineered landfill, (e.g., placement into lined discrete cells which are capped and isolated from one another and the environment, etc.)                                                                            |  |  |  |  |  |  |  |
| D6   | Release into a water body except seas/oceans                                                                                                                                                                                   |  |  |  |  |  |  |  |
| D7   | Release into seas/oceans including sea-bed insertion                                                                                                                                                                           |  |  |  |  |  |  |  |
| D8   | Biological treatment not specified elsewhere in this list which results in final compounds or mixtures which are discarded by means of any of the operations in this list                                                      |  |  |  |  |  |  |  |
| D9   | Physico-chemical treatment not specified elsewhere in this list which results in final compounds or mixtures which are discarded by means of any of the operations in this list (e.g., evaporation, drying, calcination, etc.) |  |  |  |  |  |  |  |
| D10  | Incineration on land                                                                                                                                                                                                           |  |  |  |  |  |  |  |
| D11  | Incineration at sea                                                                                                                                                                                                            |  |  |  |  |  |  |  |
| D12  | Permanent storage, (e.g., emplacement of containers in a mine, etc.)                                                                                                                                                           |  |  |  |  |  |  |  |
| D13  | Blending or mixing prior to submission to any of the operations in this list                                                                                                                                                   |  |  |  |  |  |  |  |
| D14  | Repackaging prior to submission to any of the operations in this list                                                                                                                                                          |  |  |  |  |  |  |  |
| D15  | Storage pending any of the operations in this list                                                                                                                                                                             |  |  |  |  |  |  |  |

#### **RECOVERY OPERATIONS (block 11)**

- R1 Use as a fuel (other than in direct incineration) or other means to generate energy (Basel/OECD) Use principally as a fuel or other means to generate energy (EU)
- R2 Solvent reclamation/regeneration
- R3 Recycling/reclamation of organic substances which are not used as solvents
- R4 Recycling/reclamation of metals and metal compounds
- R5 Recycling/reclamation of other inorganic materials
- R6 Regeneration of acids or bases
- R7 Recovery of components used for pollution abatement
- R8 Recovery of components from catalysts
- R9 Used oil re-refining or other reuses of previously used oil
- R10 Land treatment resulting in benefit to agriculture or ecological improvement
- R11 Uses of residual materials obtained from any of the operations numbered R1-R10
- R12 Exchange of wastes for submission to any of the operations numbered R1-R11
- R13 Accumulation of material intended for any operation in this list.

#### PACKAGING TYPES (block 7)

| 1. | Drum                |
|----|---------------------|
| 2. | Wooden barrel       |
| 3. | Jerrican            |
| 4. | Box                 |
| 5. | Bag                 |
| 6. | Composite packaging |
| 7. | Pressure receptacle |
| 8. | Bulk                |
| 9. | Other (specify)     |
|    |                     |

### **MEANS OF TRANSPORT (block 8)**

| R = Road             |
|----------------------|
| T = Train/rail       |
| S = Sea              |
| A = Air              |
| W = Inland waterways |

#### H-CODE AND UN CLASS (block 14)

| <b>UN Class</b> | H-code | Characteristics                                                     |
|-----------------|--------|---------------------------------------------------------------------|
| 1               | H1     | Explosive                                                           |
| 3               | H3     | Flammable liquids                                                   |
| 4.1             | H4.1   | Flammable solids                                                    |
| 4.2             | H4.2   | Substances or wastes liable to spontaneous combustion               |
| 4.3             | H4.3   | Substances or wastes which, in contact with water, emit flammable   |
|                 |        | gases                                                               |
| 5.1             | H5.1   | Oxidizing                                                           |
| 5.2             | H5.2   | Organic peroxides                                                   |
| 6.1             | H6.1   | Poisonous (acute)                                                   |
| 6.2             | H6.2   | Infectious substances                                               |
| 8               | H8     | Corrosives                                                          |
| 9               | H10    | Liberation of toxic gases in contact with air or water              |
| 9               | H11    | Toxic (delayed or chronic)                                          |
| 9               | H12    | Ecotoxic                                                            |
| 9               | H13    | Capable, by any means, after disposal of yielding another material, |
|                 |        | e. g., leachate, which possesses any of the characteristics listed  |
|                 |        | above                                                               |

#### PHYSICAL CHARACTERISTICS (block 13)

- Powdery/powder
- 2. Solid
- 3. Viscous/paste
- 4. Sludgy
- 5. Liquid
- 6. Gaseous

Other (specify)

| CATE     | GORIES OF WASTES TO BE CONTROLLED WASTE STREAMS (block 14)                                                                                                                                   |
|----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Y1       | Clinical wastes from medical care in hospitals, medical centers and clinics                                                                                                                  |
| Y2       | Wastes from the production and preparation of pharmaceutical products                                                                                                                        |
| Y3       | pharmaceuticals, drugs and medicines                                                                                                                                                         |
| Y4       | Wastes from the production,                                                                                                                                                                  |
| Y5       | Wastes from the manufacture, formulation and use of wood preserving chemicals                                                                                                                |
| Y6<br>Y7 | Wastes from the production, formulation and use of organic solvents                                                                                                                          |
| Y8       | Wastes from heat treatment and tempering operations containing cyanides  Waste mineral oils unfit for their originally intended use                                                          |
| Y9       | Waste oils/water, hydrocarbons/water mixtures, emulsions                                                                                                                                     |
| Y10      | Waste substances and articles containing or contaminated with polychlorinated biphenyls (PCBs) and/or polychlorinated terphenyls (PCTs) and/or polybrominated biphenyls (PBBs)               |
| Y11      | Waste tarry residues arising from refining, distillation and any pyrolytic treatment                                                                                                         |
| Y12      | Wastes from production, formulation and use of inks, dyes, pigments, paints, lacquers, varnish                                                                                               |
| Y13      | Wastes from production, formulation and use of resins, latex, plasticizers, glues/adhesives                                                                                                  |
| Y14      | Waste chemical substances arising from research and development or teaching activities which are not identified and/or are new and whose effects on man and/or the environment are not known |
| Y15      | Wastes of an explosive nature not subject to other legislation                                                                                                                               |
| Y16      | Wastes from production, formulation and use of photographic chemicals and processing materials                                                                                               |
| Y17      | Wastes resulting from surface treatment of metals and plastics                                                                                                                               |
| Y18      | Residues arising from industrial waste disposal operations                                                                                                                                   |
|          | WASTES HAVING AS CONSTITUENTS:                                                                                                                                                               |
| Y19      | Metal carbonyls                                                                                                                                                                              |
| Y20      | Beryllium; beryllium compounds                                                                                                                                                               |
| Y21      | Hexavalent chromium compounds                                                                                                                                                                |
| Y22      | Copper compounds                                                                                                                                                                             |
| Y23      | Zinc compounds                                                                                                                                                                               |
| Y24      | Arsenic; arsenic compounds                                                                                                                                                                   |
| Y25      | Selenium; selenium compounds                                                                                                                                                                 |
| Y26      | Cadmium; cadmium compounds                                                                                                                                                                   |
| Y27      | Antimony; antimony compounds                                                                                                                                                                 |
| Y28      | Tellurium; tellurium compounds                                                                                                                                                               |
| Y29      | Mercury; mercury compounds                                                                                                                                                                   |
| Y30      | Thallium; thallium compounds                                                                                                                                                                 |
| Y31      | Lead; lead compounds                                                                                                                                                                         |
| Y32      | Inorganic fluorine compounds excluding calcium fluoride                                                                                                                                      |

#### List of Abbreviations and Codes Used in the Movement Document

#### **DISPOSAL OPERATIONS (block 11)**

- D1 Deposit into or onto land, (e.g., landfill, etc.)
- D2 Land treatment, (e.g. biodegradation of liquid or sludgy discards in soils, etc.)
- D3 Deep injection, (e.g., injection of pumpable discards into wells, salt domes or naturally occurring repositories, etc.)
- D4 Surface impoundment, (e.g., placement of liquid or sludge discards into pits, ponds or lagoons, etc.)
- D5 Specially engineered landfill, (e.g., placement into lined discrete cells which are capped and isolated from one another and the environment), etc.
- D6 Release into a water body except seas/oceans
- D7 Release into seas/oceans including sea-bed insertion
- D8 Biological treatment not specified elsewhere in this list which results in final compounds or mixtures which are discarded by means of any of the operations in this list
- D9 Physico-chemical treatment not specified elsewhere in this list which results in final compounds or mixtures which are discarded by means of any of the operations in this list (e.g., evaporation, drying, calcination, etc.)
- D10 Incineration on land
- D11 Incineration at sea
- D12 Permanent storage, (e.g., emplacement of containers in a mine, etc.)
- D13 Blending or mixing prior to submission to any of the operations in this list
- D14 Repackaging prior to submission to any of the operations in this list
- D15 Storage pending any of the operations in this list

#### **RECOVERY OPERATIONS (block 11)**

- R1 Use as a fuel (other than in direct incineration) or other means to generate energy (Basel/OECD) Use principally as a fuel or other means to generate energy (EU)
- R2 Solvent reclamation/regeneration
- R3 Recycling/reclamation of organic substances which are not used as solvents
- R4 Recycling/reclamation of metals and metal compounds
- R5 Recycling/reclamation of other inorganic materials
- R6 Regeneration of acids or bases
- R7 Recovery of components used for pollution abatement
- R8 Recovery of components from catalysts
- R9 Used oil re-refining or other reuses of previously used oil
- R10 Land treatment resulting in benefit to agriculture or ecological improvement
- R11 Uses of residual materials obtained from any of the operations numbered R1-R10
- R12 Exchange of wastes for submission to any of the operations numbered R1-R11
- R13 Accumulation of material intended for any operation in this list

#### PACKAGING TYPES (block 7)

| 1. | Drum                |
|----|---------------------|
| 2. | Wooden barrel       |
| 3. | Jerrican            |
| 4. | Box                 |
| 5. | Bag                 |
| 6. | Composite packaging |
| 7. | Pressure receptacle |
| 8. | Bulk                |
| 9. | Other (specify)     |

#### MEANS OF TRANSPORT (block 8)

| R = Road       | A = Air              |
|----------------|----------------------|
| T = Train/rail | W = Inland waterways |
| S = Sea        |                      |

#### PHYSICAL CHARACTERISTICS (block 13)

| 1. | Powdery / powder | 5. | Liquid          |
|----|------------------|----|-----------------|
|    | Solid            | 6. | Gaseous         |
| 3. | Viscous / paste  | 7. | Other (specify) |
| 4. | Sludgy           |    |                 |

# H-CODE AND UN CLASS (block 14)

| OIA CI922 | n-coue | Characteristics                                           |
|-----------|--------|-----------------------------------------------------------|
| 1         | H1     | Explosive                                                 |
| 3         | H3     | Flammable liquids                                         |
| 4.1       | H4.1   | Flammable solids                                          |
| 4.2       | H4.2   | Substances or wastes liable to spontaneous combustion     |
| 4.3       | H4.3   | Substances or wastes which, in contact with water,        |
|           |        | emit flammable gases                                      |
| 5.1       | H5.1   | Oxidizing                                                 |
| 5.2       | H5.2   | Organic peroxides                                         |
| 6.1       | H6.1   | Poisonous (acute)                                         |
| 6.2       | H6.2   | Infectious substances                                     |
