

Contents of detail design report for Sewerage system.

- 1. Description of the Island**
- 2. Existing water supply and sewer system**
- 3. Drinking Water Usage**
 - 3.1 Drinking water usage
 - 3.1.1 Present water Usage
 - 3.1.2 Future water Usage
- 4. Protected areas, zones and sensitive area (If applicable).**
- 5. Community Consultation**
- 6. Design description of Sewerage Facilities**
 - 6.1 Introduction**
 - 6.2 Waste Water Collection Network**
 - 6.3 House Connection
 - 6.4 Manholes
 - 6.5 Waste Water Pumping Station
 - 6.6 Pressure Main Pipe Line / Riser Main Pipeline
 - 6.7 Sewage Treatment Plant (STP)
 - 6.8 Sea Outfall
- 7.0 Design Criteria's calculations**
 - 7.1 Sewerage system design calculations
 - 7.1.1 Sewer Network Flow Estimations & Sewerage Equipment's Sizing
 - 7.1.2 Pump Stations Zonal Flows (35 Year design period)
 - 7.1.3 Pumping Main Pipe Sizing Calculations
 - 7.1.4 Sump Well Sizing
 - 7.1.5 Sewage Pump Design Calculations (15 Year design period)
 - 7.1.6 Sea Outfall Pipe Sizing Calculations
 - 7.1.7 Anchor Block Size Calculations
 - 7.1.8 Sea Outfall Diffuser
 - 7.1.9 Odour Control System
- 8. Estimated Energy Demand for the System**
- 9. Estimated Operational cost**
- 10. Spares & Maintenance Tools**
- 11. Sewerage Treatment Plant (STP) Design Details**
 - 11.1 Design Flow Bases
 - 11.2 Influent Water Quality
 - 11.3 Treatment Scheme
 - 11.4 Treated Effluent Water Quality
 - 11.5 Process description
 - 11.5.1 Bar Screen
 - 11.5.2 Oil Skimmer
 - 11.5.3 Grit Chamber
 - 11.5.4 Equalization Tank
 - 11.5.5 Aeration Tank
 - 11.5.6 Settling Tank
 - 11.5.7 Sludge management
 - 11.6 Process flow diagram
 - 11.7 Control systems

- 11.7.1 Equalization Tank & Raw Sewage Transfer Pump
- 11.7.2 Aeration Tank, Settling Tank and Clear Water Tank
- 11.7.3 Ocean Outfall System
- 11.8 Design calculations
 - 11.8.1 Sewer CAD Analysis / Any relevant software
 - a) Minimum velocity analysis
 - b) Hydraulics and operation
 - c) Sanitary Load allocation and estimation
 - d) Pump simulations
- 11.9 Equipment list
- 11.10 Valve schedule
- 11.11 List of civil tanks
- 11.12 Pipe & fittings
- 11.13 Electrical & instrumentation
- 12. Conclusion**
- 13. Annexes**
 - 13.1 Approved Concept design report (ANNEX-01)
 - 13.2 Approved Topographic survey report (ANNEX-02)
 - 13.3 Sewer Network Flow Calculations and Pipe Velocity Calculations (ANNEX-03)
 - 13.4 Sewer Pump sizing and Head Loss Calculations (ANNEX-04)
 - 13.5 Anchor Block Sizing Calculations (ANNEX-05)
 - 13.6 Spares and Maintenance Tools list (ANNEX-6)
 - 13.7 Network Analysis output file (SewerCAD or any other relevant software) - (ANNEX-7)
 - 13.8 STP modelling output file (BioWin or any other relevant software) - (ANNEX-8)
- 14. Appendix**
 - 14.1 Location Approval Letter
 - 14.2 Civil Structural Stamped drawings, PNID/ SLD stamped Drawings
 - 14.3 Concept Design Approval Letter/ Email
 - 14.4 EIA Decision Statement
 - 14.5 Rated BOQ
 - 14.6 O&M Training Outline
 - 14.7 Power availability from Utility Service Provider
 - 14.8 Construction Methodologies
 - 14.9 Catalogs and brochures of equipment and materials

Contents of detail drawings report for Sewerage system.

DESIGN LAYOUT

1. Sewerage Network Layout
2. Sewerage Network Catchment Areas
3. Sewerage Network Zone Layout
4. Sewerage Network Layout - Zone 01, Zone 02
5. Pressure Network Layout
6. Network velocity layout
7. STP layout

DETAILED DRAWINGS FOR SPECIFIC COMPONENTS

1. Pump station layout
2. STP location
3. Pump station / Lift station details

4. Discharge pump station details
5. Gate valves details
6. Boundary wall details
7. Vent stack details
8. Odor control system details
9. Control panel board details
10. Pump station Sampling well details
11. Trench & bedding details
12. Maintenance shaft (mh) details
13. Manhole details
14. Catchpit details
15. House connection details (toilet to catchpit)
16. Thrust block details
17. Ballast block details
18. Diffuser details
19. Sea outfall details
20. E&M drawings for each control panel of pump station
21. P&DI drawings of STP
22. E&M drawings of STP
23. Hydraulic profile drawings of STP
24. Profile diagrams - pump station 01, pump station 02
